

FY2026 Programmatic and Language Appropriations Request Form

Congressman Kevin Kiley

Deadline: March 21, 2025

Thank you for your interest in the Fiscal Year 2026 Congressional appropriations process. We will be accepting two types of appropriations requests. The first are **programmatic/language requests**. These requests are for Congress to fund an authorized federal program at a specific level or include language directing a federal agency to carry out a program in a certain way. The second are **Community Project Funding requests**. These requests are to allocate funds for a specific project by a non-federal government entity or not-for-profit organization in district.

If you are interested in submitting information pertaining to programmatic or report language requests, please fill out this form as completely as possible for **each request that you want considered**. **Only fill out these forms if you are requesting money for a federal program. Do not use these forms if you are requesting funding specifically for an organization or town.** To adhere to Appropriations Committee deadlines, electronic copies of this form, in **Word format**, should be sent no later than close of business on the **dates listed in the middle column below**. Due to the high volume of requests, we cannot guarantee your request will be supported, but we will evaluate all requests and be sure to reach out with any questions. Early submissions are welcome and appreciated. Completed forms should be sent to the following points of contact listed below, and **please copy AppropriationsKiley@mail.house.gov on every submission**:
